PARTY LINES LOST

In War Revenue Fight—Half of Income Will Come From Direct Taxation—McAdoo Plans Meet Objection.

Washington, April 19.—With party lines obliterated, the entire membership of the House Ways and Means Committee tomorrow will begin consideration of methods for raising new revenue with which to meet this country's share of the war's expense. The initial problem will be the raising of the \$2,000,000,000 to meet half of the estimated cost of the first year of war, for which certificates of indebtedness soon are to be issued.

The committee also probably will lay a ground work for the collection of such other parts of the war cost that Congress may determine is to come from direct taxation. The desire of the administration is that as much of the expense as possible shall come from this source and it is virtually certain that the cost will be about equally divided between taxation and bonds.

Income Taxed Opposed

Careful consideration will be given a list of suggested new sources of taxation sent to the committee last Sunday by Secretary McAdoo after conferences with various members of the administration. He suggested the raising of about \$1,800,000,000 from various sources, including incomes, excess profits, liquors, amusements, automobile and tobacco taxes. His list will meet with strong objection in many instances, however, and already members are receiving protests against the suggestions, particularly in relation to incomes and excess profits taxes.

Probably the most radical suggestion in the list was that a 40 per cent tax be levied on all incomes over \$1,000,000. This is being termed, "confiscation," by persons of large incomes who are opposing it.

Senate and House conferees on the administration \$7,000,000,000 war bond bill failed to reach an agreement today and will resume their efforts tomorrow.

All the minor differences in the measure as it passed the two houses were smoothed out today except those on the section relating to the deposit of moneys secured from the bonds. The Senate conferees are insisting on the Senate provision, which they say gave greater discretion to the secretary of the Treasury in making such deposit.

FOR THE DEFENDANT

In the Mason Circuit Court yesterday the case of Florence Barnett's administrator against Dr. Leslie Brand finally came to a close when the jury returned a verdict for the defendant after being from the court room about 15 minutes. Attorneys Cole and Collins represented the plaintiff and Attorneys Slattery and Cochran for the defense. Each lawyer was allowed to speak for 45 minutes on the case. The jury was composed of the following gentlemen: H. W. Wood, Dale Bryant, John Fitch, Jack Hendrick, Harry Barkley, A. D. Rains, J. P. Marshall, George Atkinson, L. C. Parker, Frank Rice, William McDunough and George Patillo.

Immediately following, a jury was empaneled to try the case of Wagers vs. Malone, Messrs. Slattery and Rees representing the plaintiff and Mr. J. M. Collins the defendant. The case was not finished yesterday.

ORDERED A GOOD SPANKING

George William Tipton, the ten-year old colored boy, who was seen in the Harrison Grocery on Wednesday night, it is charged for the purpose of stealing, was tried before Juvenile Judge W. H. Rice yesterday morning at 10 o'clock. The boy was frank in all of his answers and said that he had entered the store through a window, where the pane had been broken out. He said that he had not taken anything. Judge Rice ordered his father to take him home and to give him a good spanking and father and son departed for that place, from whence sounds of anguish were soon to arise.

LOCK 'EM UP

Friends and neighbors in the community should remember that there is a statute against chickens trespassing. We hear so much about increasing farming truck and most everybody is trying to raise some garden truck, yet one of the most destructive factors are hens and chickens coming over and scratching up all that has been planted. If you own any such fasten them up or the person upon whose ground they get can kill them.

Mr. W. V. Burdick passed through this city yesterday en route to his home in Fort Thomas, Ky., after a trip to Toleboro on account of the death of his father, Dr. W. T. Burdick.

INVITATION TO THE COUNTY TEACHERS TO VISIT THE MAYSVILLE SCHOOL

Recently Miss Jessie O. Yancey advised her teachers to visit the Maysville Public Schools. We certainly appreciate the nice things Miss Yancey said about our schools and trust that we merit at least a small part of her commendation. We can praise with equal earnestness, the work done by Miss Yancey and her teachers, as Mason county under Miss Yancey's regime is noted throughout the counties of the state.

We wish to express a very hearty invitation to the county teachers to visit our school at the close of their respective terms. We feel sure that the visit will do them good, not so much because we have better teachers but it is always advantageous to view and to criticize the work of other like professions. A teacher can get many valuable points by viewing the work of another teacher, who in many respects is her inferior. We think so much of the value received from such visitations that frequently our own teachers are given a substitute that they may visit some other teacher's room.

If the visiting teachers will call at my office and express a desire for any particular work, we will inform them as to the room in which they can perhaps view this with the greatest advantage.

TRIED TO OBTAIN MONEY UNDER FALSE PRETENSES

In Police Court yesterday afternoon McClure Gruber, who runs a tailoring shop on Front street was tried for obtaining money under false pretenses. On complaint of a young man whom Gruber had sold a suit, the case was tried. The young man claimed that he had ordered a suit from Gruber and paid him four dollars on it. The suit had not arrived and he sought to recover the money. Gruber admitted getting the money for the suit but claimed that the suit had not arrived yet. Judge Whitaker held the case until Wednesday, saying that Gruber must either deliver the suit or refund the money to the young man. Gruber was represented by City Treasurer H. C. Curran.

Mr. Arch Dillon passed through this city yesterday en route to his home in Sardis after a business trip to Cincinnati.

I.O. THE POOR CORRESPONDENT

We read with very much interest in the Louisville Evening Post a special sent from this city in which is stated that an attempt is being made to blow up the C. & O. depot and that a number of suspicious characters had been chased away from the depot. We feel sorry for the correspondent as he was copying his matter from one of the local spacewriters, who is compelled to get so much copy and as a result rewrites and reshapes and invents stories of all kinds and sizes. Why not blow up a bridge, instead of a poor inoffending depot that will soon be torn down? To blow up the depot would be a useless waster of gunpowder.

GOING TO WAR WITHOUT EMOTION

"A nation never went less emotionally into war than the United States now enters the greatest war of all times," says the Chicago Tribune. "Our emotions are ragged. They have gone to tatters and our preceptions do not act readily."

"We are impervious to shock, or seem to be for the present. The theatrical elements of war which capture the imagination before the real business of it has begun have exhausted their ability to move Americans."

"We are unable now to behave as the English did when they gathered in Trafalgar square to receive the news that Great Britain had gone in on the side of the French and Russians. We cannot act as the Germans did when they filled Berlin streets with patriotic crowds, or as the French did when they knew that the great dread had become a great reality, or as the Russians did when they realized that the debacle had come out of the shadows and taken tangibility."

"Later there may be a quicker beat to the pulse and a glow in the soul, but the apparent spirit now is one of calculating acceptance of necessity."

"People usually go to war with enthusiasm or in terror. Armies fight battles with deliberation. Americans have more of the soldier spirit, just now than they have of the popular spirit behind the soldiers."

"The uplift which have come to the national consciousness is missed, but that is unessential if, as we are certain, the determination and resolve exist, however, silently."

"A glow of the national consciousness will not produce an efficient army. Determination and resolve will do so, if there is no exaltation there is a dignified reticence in the present attitude of the United States in entering a great trial for tremendous accomplishment."

"Later, we imagine, martial ardor will find expression, but now the nation feels as if, having been exposed to contagion and having hoped to escape it, the contact had proved too close to permit escape."

"Whatever now comes to the American republic it can only be for the best. It is better that we fight with the allies than that we fight alone. It is better that we solidify than that we dissolve into conflicting partisan elements, fighting against each other rather than for each other."

"It is better that we organize our strength rather than allow it to molder. It is better that we test our courage rather than to doubt its quality."

"Whatever the American republic can do for the cause to which it is now allied, the certainty is that it will do great good for itself. Whatever happens to the men and women of this generation, nothing but benefit can come to the children."

"This generation has been an honorable trustee to the next."

THE BEST METHODS OF FLY PREVENTION

The chief breeding place of flies is in manure. The best single fly prevention measure is the weekly removal of all manure. Havana, Cuba, where there is a weekly removal of manure, now has no need of fly screens or swatters.

If the weekly removal of nature is not practicable, the second best procedure is to treat the manure.

The United States government recommends borax. Sixty-two hundredths of a pound of borax is used for every ten cubic feet of manure. The day's accumulation should be put into a small pile, treated with borax, sprinkled with water in the proportion of about three gallons to about ten cubic feet, and then thrown into the larger manure bin. Nothing is gained by using a larger proportion of borax.

The University of Wisconsin recommends paris green or a solution of sulphur or iron, two pounds to one gallon of water per horse. Neither of these methods lessen the value of the manure as a fertilizer.

The third best procedure is to screen the manure boxes. Practically this method does not work well, as the general run of stablemen will not keep the screens intact or in position.

Following in importance proper use of manure as a measure for fly prevention, comes cleanliness as a means of depriving flies of food. No other single measure directed against fly food is so important as the care of garbage. The prime need is that garbage be drained, the slops put into one covered vessel and the drained garbage wrapped in paper and put into a second covered vessel.

The garbage cans should be wiped with a mixture of crude oil and kerosene twice a week in very hot weather and once a week in cooler weather. A fly trap can be adjusted to the top of the garbage can.

Proper methods of garbage collection are second in importance to the domestic garbage methods. There should be a daily garbage collection, and the collection should be made by waterproof, cleanable wagons. Havana has a daily garbage collection and a weekly removal of all manure, and in consequence, it is a flyless town.

Owing to the high cost of potatoes the grocers should now insist on gumdrops as a substitute for capping the family oil can.—Ogden (Utah), Examiner.

Now that the Russians have started a republic they'll find it a whole lot harder to retain liberty than they did to get it.—Boston Transcript.

Happiness and misfortune stand in a continual balance. Every misfortune is, as it were, the obstruction of a stream, which, after overcoming this obstacle, bursts through with greater force.

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. MODERN PAUL REVERE AROUSES BROADWAY

New York, April 18.—"The Minute Men of 1917" were called to arms by the clanging of church bells and the ride of a modern Paul Revere through the streets of Manhattan at midnight as the 142nd anniversary of the battle of Lexington began.

Miss Jean Earl Moehle, garbed as was the herald of the famous ride of the Revolution, enacted the role of the famous hero. As she rode through Fifth Avenue and the "white light" district of Broadway, she was followed by trumpeters in automobiles. The symbolical warning she sounded was the first act in the celebration of "wake up America day," planned to call recruits for the army and navy to the colors of the United States.

ORDERS TO DISMANTLE INTERNATIONAL SHIPS FOUND

Philadelphia, April 18.—Secret codes containing a cipher order to dismantle machinery on interned German liners upon the severance of diplomatic relations by the United States were discovered today on the German steamships Prinz Oskar and Phaetia, according to W. M. Berry, collector of the port. The two vessels, in government subsidy here were inspected today by representatives of the United States shipping board and were ordered to a local shipyard for repairs.

Collector Berry announced that when the two liners have been made seaworthy they probably will be placed in the transatlantic service under government direction.

THAT BACKACHE SPELLS DANGER!

Action Today May Save Maysville People Future Misery.

A bad back isn't a bad thing if it serves as warning of hidden kidney disorders. Kidney diseases are frightfully common today. We over-do so much. We don't give the kidneys a chance to rest up, and while a bad back, some bladder disorder, an occasional dizzy spell or a persistent headache may be the only outward sign, the kidney trouble that is behind it all may be overlooked or neglected. Put your signs to use. Take them as warnings. Fight off kidney weakness. It takes only a slight kidney disorder to start a case of fatal Bright's disease, from which 100,000 people die in the United States every year. Prompt treatment at first—that's all that's necessary to keep kidney weakness from turning into gravel, dropsy, gout, heart trouble or Bright's. Use Doan's Kidney Pills—the oldest, the most widely used, the best-recommended Kidney Pills. Forty thousand Americans recommend them publicly. Here's one Maysville case:

Mrs. John Burns, W. Second St., Maysville, says: "I was subject to severe spells of backache and other kidney trouble. They would come on every three or six months and there were times when I was confined to bed and rendered helpless. The quick and decided benefit I received from Doan's Kidney Pills was wonderful. I have never had such severe attacks since." (Statement given February 13, 1914.)

NO TROUBLE SINCE
On November 15, 1916, Mrs. Burns said: "I have the same good words of praise for Doan's Kidney Pills today, as ever. I have not needed a kidney medicine since I took them."

Mrs. Burns is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Burns has twice publicly recommended—the remedy backed by home testimony. NAVAL ENGAGEMENT REPORTS ARE DENIED

Boston, April 18—It was officially announced at the navy yard late today that no credence was placed in reports from three coast guard stations on Cape Cod that heavy gunfire had been heard off the coast. The positive statement was made that there had been no naval engagement and that warships had not exchanged salutes with foreign vessels.

The previous announcement that heavy gunfire had been heard during the morning was also issued officially at the navy yard. It was based on reports from Cape Cod received by Lieutenant E. G. Blakeslee, in charge of the naval radio district.

Newspaper correspondents at points on the cape reported that they had not heard any gunfire, and that they knew nothing of it except from the bulletins issued by the naval authorities.

The statement discrediting the first official announcement was issued after the navy yard radio station had been in communication with the patrol fleet off the coast. No information of any firing was obtained from ships at sea, the authorities said, adding that coast guard stations had sent in no additional reports. Naval officers who were asked to explain the probable origin of the morning reports, which, according to the official announcement, came independently from three coast guard stations, said they were unable to offer any suggestion as to what might have been heard at those stations.

Tonight there were reports current on the tip of Cape Cod of further firing. The sounds were heard between 10 and 10:30 o'clock and apparently came from the northwest, the story said, but none of the rumors could be pinned down to an official course. Coast guards stationed in the vicinity of Provincetown reported that they had heard nothing.

WILSON AND NAVY BOARD CONSIDER U. S. CAMPAIGN

London, April 18—The report of Rear Admiral William S. Sims, United States Navy, head of the American naval mission now in England, dealing with all phases of the submarine program, has been forwarded to Washington, where it is being considered by President Wilson and the naval board, who will be guided by it in determining the manner in which the American fleet can best co-operate with the British navy in combating the underwater craft.

The report is the result of several days conference here between Rear Admiral Sims and the head of the British Admiralty, who have placed every facility at the disposal of the American mission in order that they might learn the true status of the submarine warfare. When President Wilson and the naval board decide on the method of co-operation between the United States and British fleets, word will be sent to Rear Admiral Sims here, who in conjunction with the British Admiralty will proceed to put it into effect.

"We don't expect to get all of the submarines and boats," said an admiralty official, but just enough to break the back of the submarine campaign. In other words, we hope to defeat the submarines by destroying enough of them to weaken their morale in much the same manner that an army is broken through defeating a portion of it."

LOAFERS WILL BE PUT TO WORK IN CARLISLE

Carlisle, Ky., April 18—Judge James Mitchell issued warrants today for a number of negroes charged with vagrancy. Several were brought before the court and were instructed by Judge Mitchell to go to work immediately, and were notified that upon failure to do so, they would be put to work on the county roads.

During the past few weeks there has been considerable complaint among the farmers of the county that help could not be secured, notwithstanding that more than a score of men without visible means of support were loafing around the town.

FOR WAR SERVICE

Washington, April 18—Forty-five lighthouse tenders, including equipment and personnel, were transferred by Executive order today from the Commerce Department to the Navy and War Departments for service as long as the national emergency may exist.

ROOSEVELT MAY ABANDON PLAN

Oyster Bay, N. His preference, however, he said, would be to raise a division.

RURAL ROUTE CARRIER REMOVED

(Dover News)

Rural Route Carrier C. R. Nower, who has been in charge of Route 1 out of Dover since the route was established some twelve years ago, was relieved from the service Saturday by the Postoffice Department, for reasons deemed sufficient by the officers of the Department, after investigating charges made against him.

Several weeks ago two inspectors spent several days in Dover taking evidence for and against the accused, the result of which was the decision that his removal would be for the best interest of the carrier service. The position has paid of late years \$100 per month, and we understand quite a number of men served by the route will take the civil service examination for the position made vacant.

The dismissal was to take effect Tuesday. Mr. Nower failed to report for duty Monday morning, and Postmaster Mitchell swore in C. B. Anderson and the two, in Joe McMillan's auto, served the patrons of the route, and will probably continue to do so until a regular carrier is appointed and qualified.

The removal of Mr. Nower as Rural Route Carrier, brings to an end an unglorious and in our opinion a most uncalled for controversy. The good people served by this route are in a position to know whether or not a change was called for. We think the Department has made a serious mistake in allowing the matter to go as far as it has.

"THE LAST JUDGMENT"

The revival at the Third Street M. E. Church continues and last night the pastor preached a very strong sermon on "The Last Judgment," taking as his text Revelations 6:17—"For the great day of his wrath is come; and who shall be able to stand?" A quartet sang "The Great Judgment Morning."

These services are doing a great good in this community and if you have not been attending you are missing a spiritual treat. Services this evening at 7:30 o'clock.

SCHOOLS CLOSE TODAY

The schools of the county will close today for the term, excepting those that have lost time during the year. A number of the schools will be compelled to remain open for two weeks and possibly a month longer. Graduation exercises are being held at the various school houses.
